A Block-Based Quilt  
Pattern  
by  
Dena Dale Crain

Use this appliqué block to make a simple 4 x 4 Sudoku Quilt! Appliqué the shapes to the background, embellish them as you like, and arrange them so that no row or column of blocks holds more than one orientation.

Appliqué can be needle-turn or fused with blanket or satin stitching on top as in the original quilt. Add sashing and cornerstones--mine finished 2" wide and matched-- and quilt as you please!

The finished block is 8" square. **Add seam allowance to the pattern for the background!**

For more fun, register for my other online quilt classes at Academy of Quilting!

Test print = 2" square
